WEATHERED BEAUTY.
RESILIENT DESIGN.

RESURGENCE OF NATURE.

Break the pattern with Modus. An unexpected collection that exudes timelessness. Discover the power of nature's elements through your spatial design with the irregular beauty of Modus and its four captivating designs: Rust, Ivy, Fade and Trace.

The four designs within the Modus collection represent the beauty that comes with the passing of time. It explores nature's elements through their influence on surfaces and objects, creating a resilient path of beauty.

BEAUTY BY DECAY

Recognizing the mesmerizing perspective that decay offers on the transient nature of existence, Joris Peutz delved deep into the visual poetry of aging and weathering. Modus emerged as a testament to the enchanting textures, vibrant colours, and artistic patterns that unfold as materials undergo their metamorphosis through the ages.

“Modus is my ode to the captivating aesthetic expedition of nature’s continuous evolution, inviting individuals to embrace the transformative touch of time within their spaces.”

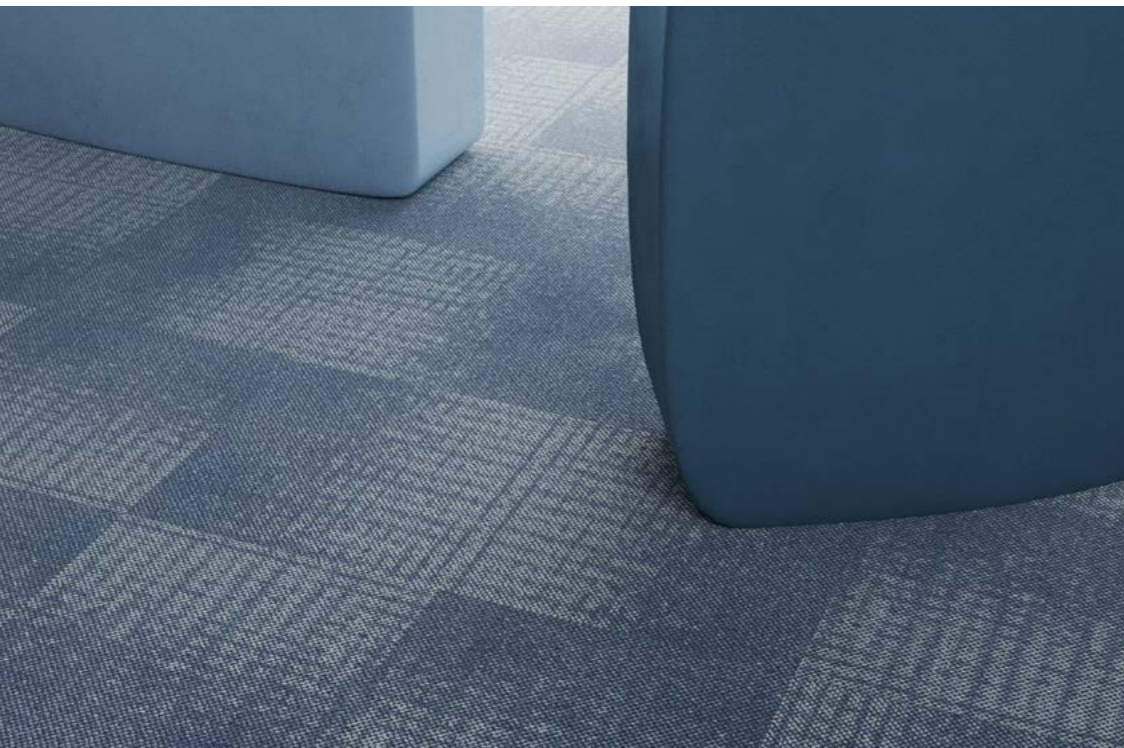

THE DESIGNER

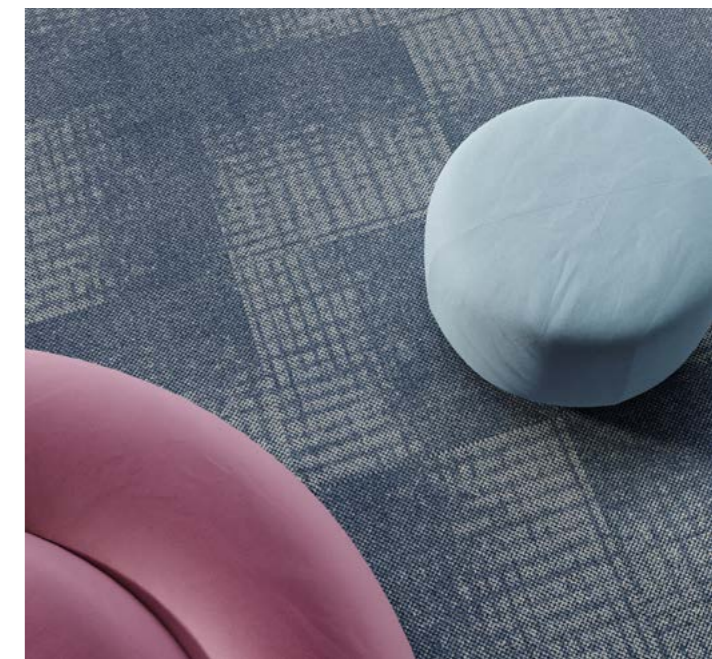

The influence of time became a central theme, guiding the creation of four distinct designs – Rust, Ivy, Fade, and Trace. Each design eloquently mirrors various facets of decay, encapsulating the inherent beauty embedded within the transformative touch of time.

EPHEMERAL BEAUTY

Decay, often associated with the inexorable march of time and the unrelenting natural wear and tear, provides a mesmerizing perspective on the fleeting nature of existence. With Modus, we delve deep into the visual poetry of aging and weathering, illuminating the enchanting textures, vibrant colours, and artistic patterns that arise as materials undergo their metamorphosis through the ages.

This exploration into decay acts as an unwavering reminder that amidst the ever-changing tides and the gradual erosion, an unprecedented and intrepid beauty lurks, eager to be unveiled. This collection grasps the very essence of this aesthetic expedition, providing you with the key to embrace nature's captivating and continuous evolution within your spaces.

Modus comprises four distinct designs, each eloquently mirroring the various facets of decay. These four designs – Rust, Ivy, Fade, and Trace –encapsulate the inherent beauty embedded within the transformative touch of time.

Rust, where unique textures and captivating colors unfold. This collection explores the interplay between an object and the element of water. Rust adds texture to surfaces, creating beguiling patterns and variations that can be visually captivating. It stands as poignant reminder of the impermanence of all things and the hidden beauty that can be found in the most unexpected places.

Much like the evergreen, tenacious climbing plant, the Ivy collection represents resilience, seamlessly transforming your space into an enchanting oasis. With Ivy you'll craft an intricate and distinctive ambiance that is both sophisticated and ornate.

THE INFLUENCE OF TIME

Embrace an understated yet enduring elegance with Fade. This collection masterfully captures the beauty of natural aging, bestowing a quiet, timeless grace upon your surroundings. Fade gracefully underscores the inevitability of change and evolution over time.

Traces are like silent storytellers, offering glimpses into the past or the journey that led to their creation. In the realm of design, Trace adds ephemeral elegance to your space, inviting a sense of wonder and evoking the gentle mystery of nature's fingerprints on the world.

MODUS: CIRCULAR DESIGN EXCELLENCE

Crafted with 100% regenerated ECONYL® yarn, every piece in the Modus collection marries sustainability with design. Each carpet tile from Rust, Ivy, Fade and Trace is equipped with our recyclable ecoBack backing, underscoring our commitment to environmentally conscious choices.

In recognition of our efforts to meet rigorous standards of environmental and social responsibility, the Modus collection has been granted Cradle to Cradle Certified® Gold or Silver status, depending on the colour.
